

When you have changed  
you can go home.

The Doctor or the  
hospital will let you know  
the results of the test.

## Going For An Ultra Sound Scan

An Ultra Sound Scan is a type of test  
that is done in a hospital.

It is like having a photograph done of  
the inside of your body.

You may take a carer or friend with you.

When you arrive at the Hospital for your Ultra Sound Scan you will need to give your letter or card to the person at the desk.

You may need to sit in a waiting area. You will be called when it is your turn to go in for an Ultra Sound Scan.

When it is your turn you may need to take off your shirt or top and put on a hospital gown.

The radiographer will ask you to lie on the bed. She will place the special camera on your tummy

Once your scan has been done you can get off the trolley and go and get changed back into your clothes.
