ALDD/054 Review April 2007

What is a Macmillan Nurse?

A Macmillan Nurse is a nurse that helps people who have cancer. Cancer is an illness which can make your body change so it does not work properly.

The Macmillan nurse can help you:

Make choices about your health and care

Help with your pain

Make sure you have the right tablets for your illness

Talk to your family or carers

Give you Information about Cancer

Will support and listen to you
